#### OBSERVATIONS:

Planned Parenthood continues to perform surgical abortions approximately every other Tuesday at their Durango location, with an apparent average of three babies being killed each time. Please join our vigil to put an end to this massacre of the innocent if you can. If it isn't possible for you to be here in person, pray from where you are. With the passing of the "heartbeat law" in Texas there is increasing hope that Colorado and surrounding states might follow suit. This is the time to pray without ceasing for those who cannot speak for themselves. Thank you to all of the volunteers who have come week after week for years at a time. You make a huge difference even on the days when direct results go unseen.
